Trade and Business Conference

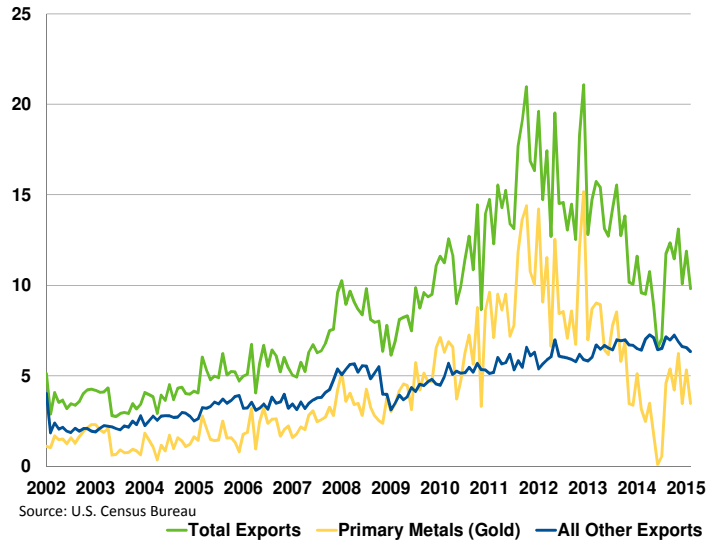

Utah's Export Industry

Utah's net international exports for 2014 totaled \$12.27 billion. The overall trend declined over the past several years due to the decline in gold exports. However, when gold is removed from the picture, all other exports have shown a steady increase. The top three export industries for Utah are Primary Metals, Computers and Electronics, and Chemicals. The top three purchasing countries for Utah's exports are Hong Kong, Canada, and the United Kingdom.
